'We've found Business in Berkshire is one of the most effective ways to spread the word about our business. As well as sharing our news with other businesses across the region, we have achieved some excellent Google rankings as a result of our involvement.'

'Getting noticed on the internet has always been an important part of our marketing strategy and we've found Business in Berkshire really delivers the results we need.'

By publishing regular articles in our Business in Berkshire space, we've managed to score some amazing Google results – in far less time than we expected. Working together with Jon and his team of designers and writers has been a pleasure.

They always work quickly and with enthusiasm. Together we've put together a clear plan for the sort of traffic we want to attract to our site. Through combined teamwork and a proactive approach we can really see the results starting to happen – a real testament to the power of Business in Berkshire.'
