

# There's NO PLACE

# Like home

It's always good to get away  
So we took a trip to Weymouth Bay  
Not far to drive, no queue for flights  
An ideal break for 7 nights.  
A caravan park where pets could stay  
And near the beach for the kids to play.  
The weather wasn't really bad  
But the caravan started to drive us mad  
There was lots to see & plenty to do  
But there's also loads near our house too!  
When we're at home, we're always working  
There are so many jobs and projects lurking  
We definitely needed to have a break  
Some time to think, a rest to take  
We knew it was good to get away,  
But there are different kinds of holiday...  
So, we headed home on our 4th night  
With an alternative holiday in our sight  
We kept the office firmly locked  
The telephones kept soundly blocked  
The comfort of sleeping in our own beds  
But with the feeling of holiday in our heads  
We had a few days just staying local  
Making sure our family time was focal  
One thing is sure, there is no place  
Like being at home in your own space!
