

# Thunderfresh Expand

Based in Maidenhead, Thunderfresh have been manufacturing fresh food products for more than 25 years producing a vast range of freshly prepared fruit salads including, leaf and dressed salads, and prepared vegetables.

The firm have also added some exciting new products including healthy sandwich fillings and a range of top quality Italian food.

Director Zoohar Shaio explains:

"Thunderfresh can now supply a variety of top quality Italian products including, grilled vegetables, oyster mushrooms, sun dried and sun blush tomatoes. We also offer various types of olives and some excellent seafood including octopus, anchovies, sardines and mussels." The range is certainly impressive: red and green garlic, onions in balsamic vinegar, red baby bell pepper, artichoke and ham – the list goes on. "These products provide our customers with cost effective tapas, starters, and quality ingredients" adds Zoohar.

Following a recent expansion, Thunderfresh have added a new temperature-controlled production area and large cold stores - facilities which enable them to offer all types of salads as well as the individual ingredients for salad making, such as bulk cooked pasta and noodles of different shapes. Always keen to progress, Zoohar is already using the skills of the LiaiseOnline team to assist with marketing and the creation of a new website. He recently attended the email marketing seminar run by LiaiseOnline at the Renaissance Hotel in Reading.

Thunderfresh has been operating for over 25 years in Maidenhead. They are members of the British Sandwich Association and the company prides itself on using only the freshest produce, which is delivered daily for specific customer orders. Chilled vehicles ensure that the product reaches the customers in the best condition.
