Starting at only £99 + VAT for the keys to your own BinB micro site and rental for the year the numbers stack up. Our Christmas in Berkshire space was visited by over 1000 people in October 2008, 431 via the search engines. If this was your space and you'd added an average of 1.67 articles per month of your own making, the cost would be around £9.69 per month and therefore equate to a smidgen over 2p per click through from the search engines or less than a penny per micro site visitor!
