

China's Secret

A Unique Christmas gift idea

Maidenhead-based 'China's Secret' turns tea drinking into a visual and aromatic experience. Their handcrafted flowerball teas, which when brewed reveal a flower on the inside, make unusual and unique Christmas gifts whilst their authentic green teas come in attractive packaging that makes them great as a gift – or just as a special treat for oneself.

China's Secret specialises in importing Chinese teas and retailing direct to the consumer via their website as well as wholesale to specialist delis, luxury department stores and the foodservice industry. Hazel Tan of China's Secret explains: "Most consumers' experience of Chinese tea comes from the bitter and cheap black tea served to them in their local Chinese restaurant. There are a whole range of high grade Chinese teas that the Chinese drink that the West is unaware of – plus different optimal brewing conditions to elicit the maximum health benefits of green tea. China's Secret aims to share the pleasures of tea-drinking with our customers through our products and literature." China Secret's tea-makers practice time-honoured methods of crafting tea. All their teas come from the Fujian province – the most honoured of the tea producing areas. They come in packs of 4, 8 and 12 – small enough to treat yourself or large enough to share!
