

Our Services >

Why we're different

Because we care. We care about our clients, we care about the environment and we care about the services we provide. Our services are attractive to Small to Medium sized Enterprises (SMEs) because they are easy to use, convenient, good value for money and highlight the benefits of recycling.

What do we offer?

We recognise that there is a need to improve and increase recycling services to SMEs who sometimes find it difficult to access appropriate recycling services for the waste material they generate.

We collect and recycle ***Paper, Cardboard, Plastic Cups and Bottles, Aluminium Cans, Computers, Fluorescent Tubes and Bulbs.*** In fact, most items that you'll find in any office. We are also often asked to clear out offices.

We provide containers and office bins free of charge.
No Rental - No Deposit - No Problem.

You can benefit from our experience by asking for a free, no obligation waste audit of your business. We will assess how, through minor changes, you can divert material from landfill and save money in the process.
