

# Paper & Cardboard >

## **Paper Recycling**

We provide recycling bins to match your office surroundings that are specially designed for waste paper collection within the office or work environment. We recommend one bin for every five members of staff. Collections can be arranged for your convenience, including out-of-office hours.

## **Cardboard Recycling**

We'll supply you with separate containers for your cardboard so that it can be easily recycled without contamination. All collected cardboard is shredded, baled and sold for animal bedding.

## **Packaging**

Most organisations generate packaging waste which is often discarded with the general waste where it either goes to landfill or recovery. The best place to start when embarking on a packaging waste recycling programme is Green-A-Way.
