

# Knowledge Inspiration, and Answers That's Sustainabilitylive!

Taking place at the NEC in Birmingham from 1st to 3rd May 2007, Sustainabilitylive! is the UK's largest forum for excellence and innovation in environment, water, land and energy.

Comprising of the already successful Environmental Technology (ET), International Clean Up (ICU), and National Energy Management (Nemex) exhibitions, Sustainabilitylive! also introduces the International Water and Effluent Exhibition (IWEX) and Environmental Services (ES) into Faversham House Group's impressive water and environment portfolio.

Focusing on the environmental, land remediation, energy and water sectors, Sustainabilitylive! offers a high-level conference, keynote speaker sessions, networking and innovation forums with industry achievement and excellence recognised at related Awards ceremonies. Special events will be taking place across the shows, with the Drilling & Tapping event at IWEX being just one example.

If you take an interest in environment, water, land, energy or sustainability issues, Sustainabilitylive! at the NEC, Birmingham from the 1-3 May 2007 is an event you cannot afford to miss – and the business opportunities are endless...

For up-to-the-minute news on exhibitors, the features programme and to register for free attendance or apply for one of the Industry Achievement Awards, please visit: [www.sustainabilitylive.com](http://www.sustainabilitylive.com) or call Joanna Sheehy on 0208 651 7130.
