

Fish In Custard

offers practical help to overstretched small businesses

Small businesses often have too much to do and not enough time in which to do it, especially when chasing down new orders or projects takes priority. Trouble is, that can leave an event short of visitors, the office admin piling up with unsent (and therefore unpaid) customer invoices and overdue VAT payments.

Fish In Custard offers a variety of business services to small firms whose best intentions remain just that. So they will keep your back office admin up to date, carry out research projects, undertake marketing and PR campaigns and manage events, which recently included a series of student roadshows to promote the business strategy tool, Yomp.

Hannah Lewis of Fish In Custard was one of the lucky winners at the Business in Berkshire's GIFT event. With the amazing promotion and support she has received from Business In Berkshire plus hard work Fish In Custard is starting to grow.

"Small businesses often lack resource in a number of areas – from office admin jobs like invoicing or organising expenses right through to managing crucial sales and marketing projects." Said Hannah Lewis of Fish In Custard

"Unlike a typical secretarial support company, though, Fish in Custard can help right across the board and aims to build a trusted network of suppliers with specific skillsets that will expand the range of services on offer," she added.

So if you find your business swamped in Custard contact:
