

February 2009 - Jazzmouse News

Sell your self!
 The new Jazzmouse online shop can now sell both digital media and physical media. Photographs, paintings, sculpture even shoes! You even get to keep most of the money!

With revenue streams diminishing for many of us it is refreshing to discover a system that enables those of us in the creative arts to sell what we do easily and from the comfort of our own home or offices.

Jazzmouse, in conjunction with our e-marketing solution partners LiaiseOnline, can now offer a one-stop solution for your online sales requirements.

We are offering the opportunity for you to sell either digital (download material audio, photographs, printed music or artwork) or physical media (DVD, CD, Art, sculpture or anything) either via your own web site or via your own micro site.

What is a micro site? A business lead generation service for businesses who are looking to the internet to provide new business opportunities. In 2008 LiaiseOnline and a host of client sites shared in over 1,000,000 visitors! Tens of thousands finding LiaiseOnline and partner micro sites as a result of organic search engine listings.

If you have a web site and it doesn't have changing content either via blog or newsletter then it is **not** working for you!

So what does it cost? Well if you are a musician selling an album with 10 or so tracks on it you can have a full set of button codes enabling you to sell your products on any site (including myspace), a professional newsletter and a micro site for £495 (+vat). This includes professional Mp3 encryption in Pro Tools, upload & button creation. Hosting for 12 months and instruction on how to add more content to your micro site.

The best bit is you get to keep up to 80% of any revenue that is generated. You can also offer discount codes and special offers to allow more marketing opportunities!

What are you waiting for? Please contact Jazzmouse on 07850 973 469.
