

# Digital marketing services sales people wanted

## Digital marketing business development services

**W**e're looking for self employed sales people to provide business development for our digital marketing services.

Call 01753 852904 if you are a top digital marketing sales business development manager, we need to talk to you ASAP! LiaiseOnline have been in the online marketing space for around 10 years and so have extensive knowledge and experience.

We are on the lookout for TOP digital marketing sales professionals to ensure we move our business forward in 2009.

We started out building websites. We were one of the first into email marketing in 2001. We launched our BinB online community in 2002. And last year we had over 1,000,000 visitors to our business websites.

We've been offering low price entry to BinB micro site owners for a couple of years and started our Promotional

Micro Site (PMS) service in 2008. Under PMS we white label the web space and ftp out under a strategic domain name. This enables the micro site to benefit from the seo power of our main site but present itself under its own brand. Excellent!

In 2009 we're sharpening the design to appeal to higher end clients and are looking to work with end users direct. Organisations with real marketing budgets who have been spending their resources with design agencies who are great at pretty and billing top dollar but have had limited real impact on their bottom line. We produce real measurable results.

Our starting point is results based. We recommend you try us with a fixed trial budget to see what we can do before throwing more resources at us.

The word digital means trackable, equates to measureable. We're happy to be measured if you are!

If you have a good feel for the Internet and what's cooking then contact Jon Davey on 01753 852904 to discuss how we can help each other make a few quid in 2009. Thank you.
