

Leasing BMW 3 Series

Think a BMW 3 Series is out of your reach? You could be surprised – leasing a BMW 3 Series is an affordable way to drive this popular model. Unlike buying a car on a finance agreement, leasing a car means you only pay for the use of the vehicle and not the purchase price.

Leasing a BMW 3 Series is a popular choice for Windsor Vehicle Leasing customers who appreciate the qualities of the German marque and want an affordable option. With car leasing, the driver's monthly payments cover the cost of the depreciation over the time they use the car, with the option to buy or return the vehicle at the end of the agreement. As leasing payments tend to be cheaper than purchasing, it's an affordable way to drive a new (or nearly new) car – perhaps even an exciting luxury model like the BMW 3 Series that may otherwise be out of your budget.

The ever-popular 3 Series model has long been the BMW driving machine of choice for those

looking for high quality, strong performance, prestige, and styling all wrapped up in one compact package. What Car? said of the BMW 3 Series: “a great drive, with excellent poise through corners, informative steering and a range of strong engines. Refinement is excellent and the cabin has a high-quality feel.”

The BMW 3 Series saloon range includes 24 models, covering 12 petrol engines and 12 diesels from 1.8 capacity through to 3.5. Leasing a new or used BMW 3 Series from Windsor Vehicle Leasing could cost you less than you think. Leasing is an innovative solution that often allows a higher spec vehicle to be available at a more competitive market rent with a new/used deal.

WVL is not a big business by vehicle leasing company standards, managing somewhere approaching 2000 vehicles, but knowing each customer individually and their requirements pays dividends for both supplier and user. To find out more about leasing a BMW 3 Series, contact Ben Newton on 01753 856126.
