

We always put you first

Is Contract Hire the best route for your business?

If you are after a low cost, low risk route to finance your vehicle or fleet, the answer is probably yes.

New vehicles, fixed monthly payments, no hidden extras, choice, flexibility and low risk are just some of the reasons for choosing Contract Hire from WVL.

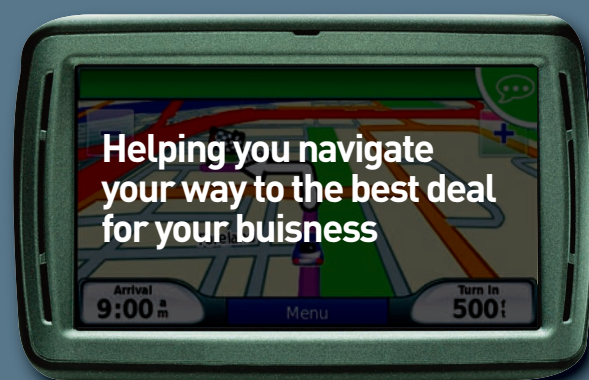

We offer a full service - from routine servicing to glass replacement. All you have to do is decide which vehicle(s) you want, for how long (one to five years) and how many miles you think you'll do per year. Then, at the end of the contract, we simply take the vehicle(s) back - and that's it.

Another advantage of Contract Hire is that you have the ability to reclaim some or all of the VAT from the hire rate. We can provide you with information on how much you can reclaim, but if you use a Contract Hire vehicle for 100% business use then you can reclaim 100% of the VAT and for business and personal use you can reclaim 50% of the VAT.

So if you want to get on with running your business - without the hassle of running your vehicles - call WVL today.

At WVL we also offer:

- Sale and leaseback
- Finance lease
- OpenLease
- Personal contract hire
- Fleet management

At WVL we will sit down with you to understand your exact vehicle and maintenance requirements and then provide you with a quote for a monthly vehicle usage fee. The rate agreed at the beginning will be fixed for the term of the contract hire agreement.

WVL currently manage thousands of vehicles in the south of England. We are totally independent and have no bias so offer an open, transparent and pioneering view of your fleet requirements.

Here at WVL we are not aiming to be the largest leasing company in the country - we are striving to be the most progressive.

Call us today to experience an individual leasing service with the human touch.
