Leasing a car is the best way for Windsor Vehicle Leasing customers who want an affordable way to drive a new or nearly new car. With car leasing, the driver's monthly payments cover the cost of the depreciation over the time they use the car, with the option to buy or return the vehicle at the end of the agreement. As leasing payments tend to be cheaper than purchasing, it's a cost-effective option which often means you can get behind the wheel of a better class of car than you thought you could afford.

Ben Newton of Windsor Vehicle Leasing adds 'The Mercedes M Class edition S comes as standard in black although metallic black or silver paints can be specified as options.'
